

Spaceships on Bankhead Revisited
after Jeezy and Fabo

Between its columns
of its A's and T's
Atlanta has released
Bifrost bridges into the Sublime
Portals of black excellence
where Bankhead
and Buckhead converge
bank and buck transacting
beneath shooting
Glocks and wailing Sirens
Launchpad for Stankonia
Seven lightyears below sea level
Mecca of the metaverse
Wakanda shed her skin here
Her dust settled in Magic City
and the Blue Flame
Medusas in G-strings emerged
awaiting tribute
Glitter on their lips and eyelids
Worshippers shower
them with tithes
while rappers mumble
in unknown tongues
And this is where
Parliament/Funkadelic
arrives to reclaim her children
swinging down south
of Andromeda
for another ride
